••• Certifications

Metropolic Paper Industries believes in the process to strengthen its product manufacturing by stamping the products with the best certification process available in the UAE. These certification laws are very stringent and require diligent processes to achieve desired actions to comply with international norms in order to provide the best product to the end consumer.

By using 100% raw virgin pulp we primarily must be members for FSC certification which means for every one tree is cut three more trees are planted to protect our planet and green environment. This entire process also protects the climate in a positive way

ISO certification is a seal of approval from a third party body that a company runs to one of the international standards developed and published by the International Organization for Standardization.

We make life softer.

About Our Company

The journey to excellence began in 1995, when Metropolic Paper Industries (MPI) was incorporated in the United Arab Emirates. Since then, we have strengthened our position as market leaders in tissue manufacturing and tissue converting in the GCC region. We bring together professional strength, technological superiority and benchmarked quality to offer cutting-edge solutions..

With sustainability at the core, our operations are characterized by environmentally-friendly processes. We use 100% raw virgin pulp sourced from the best suppliers worldwide, and convert them into durable, absorbent and economical products. Today, our clientele includes top supermarkets, exporters, wholesalers, retailers and hotels.

Metropolic Papers is the best solution for your
